gate; and in the space of fifty-seven and one-half seconds the contents of the cases were undergoing a critical analysis, when it was found that "Tip becanoe" was a preparation far superior to any bitters now or ever known to the public. As the delegates staked their assimilated thirsts, they one and all praised "Tippecanoe" and Tyler, too, while complimentary remarks were made by such adepts as the Hon. John Kelly, George W. Plunkett, Wil liam H. Hullihan, Senator Treanor, and many others. It was generally conceded that "Tippecanoe" had the effect of infusing new life and energy in the ranks of the assembled warrior ; and clearing their intellects after the very severe physical and mental strain incident to the convention, so while it was considered at first simply a palatable drink, it proved to be a preparation which not only re reshed, but was inquestionably the itst remedy known for dyspepsia, mal-a landation of food, derangements, constit : on, tired feelngs, malaria, blood dsorders, skin eruptions, loss of energy feeble appetite, bilious headache, e.c. cent issue. "Tippecanoe" is prep. by Mr. H. H. Warner, of Rochest N. Y., who is known to every ma woman and child in the land as the proprietor of Warner's Safe Kidney and Liver Cure. In addition also to "Tippecanoe," Mr. Warner is just introducing a Safe Rheumatic Cure, which he personally guarantees to curninety-five per cent. of all rneumatic affections. The popularity of the Safe Cure, together with the high per onal standing of Mr. Warner, make this the most complete and responsible guarantee possible. The peculiar name of 'Tippecanoe' is, as we learn, adopted to prevent the fraudulent imitations which always follow meritorious articles. Its principal ingredients were used by the Harrison family in those early days, and became famous for efficiency at that time. The terrible revelations made by modern health statistics indicate that something must be done to check the ravages of disease and stop untimely deaths. Thousands of persons are dying annually from to other cause than thoughtless neglect. The slight symptoms of uneasiness, headaches, constipation, stomach de rangements, mal assimilation of food and other similar troubles are often considered of too little importance to require attention or treatment. They are therefore permitted to continue until the health is broken, the constitution wrecked and the life exhausted,
